

National Defense Authorization Act (NDAA)

Viking Electronics Inc. is pleased to affirm that our entire product line, which includes solutions offered to the US government and to US government contractors as well as grant recipients, are NDAA 2019 compliant. Specifically, none of our products contain components from any of the problematic companies highlighted in Section 889. Viking Electronics does not employ any SoC (System on Chip), or other components capable of processing software, from the banned Chinese companies. All Viking Electronics products use NDAA compliant chipsets.

If you have any questions or concerns, please email: info@vikingelectronics.com

Thank you for your continued support.
Viking Electronics, Inc.

NDAA Background

The John S. McCain National Defense Authorization Act (NDAA) for Fiscal Year 2019 was signed into law on August 13, 2018. The law, specifically Section 889, amongst other things prohibits federal agencies, their contractors and grant or loan recipients from procuring or using “telecommunications and video surveillance equipment or services” from specific Chinese companies as a “substantial or essential component of any system, or as critical technology as part of any system.” The NDAA ban includes telecommunications equipment produced by Huawei Technologies Company or ZTE Corporation, as well as video surveillance and telecommunications equipment produced by Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, or Dahua Technology Company; and their affiliated entities.
