Provide the **ULTIMATE** in WEATHER PROTECTION
for your VIKING product or other device

SRL-1 Single Line Loud Ringer with Bright LEDs

Add Loud Ringing and Visual Ring Indication to Any Analog Phone Line

FOUR DIFFERENT RINGING SOUNDS:

- ELECTRONIC WARBLE
- QUADRUPLE CHIME
- DOUBLE GONG
- ELECTRONIC BELL

LISTEN to the different sounds online!

For more info on model SRL-1,

vikingelectronics.com/products/srl-1/

The SRL-1 will generate loud ringing and bright flashing LEDs from an analog ringing line or from a dry contact closure. There are 4 different ringing sounds to choose from. Loudness is easily adjusted with a volume control and test button.

The unique sounding rings are useful for employees that often work away from their desks, allowing them to instantly recognize when their phone is ringing. A second set of contact inputs will trigger a door chime (doorbell) sound. This can be used to notify that a door has opened or used as a door bell or push for assistance button.

- Bright flashing ring indication
- LEDs visible over 100 feet
- Loud ringing from an analog line
- Loud ringing from a dry contact closure
- Provides a door chime tone for either a doorbell, a door open sensor, or a "Push for Assistance" button
- Adjustable volume control
- Test button for setting volume
- External 8-Ohm speaker can be added, such as Viking's 25AE Paging Horn or 30AE Ceiling Speaker
- Power supply included

TRIVIA QUESTION

The Vince Lombardi Trophy is awarded to the winning team of the Super Bowl. How much does the trophy weigh?

Everyone who submits the correct answer by 2/28/2023 will be entered into a prize drawing.

HOW TO | Call: 715-386-8861 | Fax: 715-386-4344,

NOV-DEC Trivia: What popular song's real title is "The New England Boy's Song About Thanksgiving Day"?

Answer: Over the River and Through the Woods

Congratulations to **LAURA JOHNSON** from **WESCO!**

VE-9x12 Series

Outdoor Enclosures

Add Protection to Your Viking Emergency Phone, Entry Phone, Doorbox or Other Product

The VE-9x12 series of outdoor enclosures provide the ultimate in weather protection for your Viking product or other device. The VE-9x12 enclosures are constructed of durable UV stable polycarbonate / ABS composite to provide years of outdoor service. The heavy-duty doors are labeled "Telephone" and have a gasket seal to keep out even the harshest weather. The VE-9x12 allows you to choose from three panels that allow mounting many different Viking products.

The VE-9x12 enclosures are available in three high visibility colors: red with silver lettering, yellow with red lettering, or black with silver lettering.

Models VE-9x12(R/Y/B)-0P come without an adapter panel, ideal for mounting non-Viking equipment. These enclosures are available in all three colors and include a separate "Telephone" label.

- Designed to meet NEMA/EEMAC Type 4/4X/12 requirements
- Constructed of heavy-duty UV stable polycarbonate / ABS composite with flame-retardant UL 94 V-0 rating
- All models are available in Red, Yellow, or Black
- Three internal adapter panel options
- Models available without internal adapter panel for mounting other (non-Viking) products and include a separate "Telephone" label
