

START THIS YEAR **STRONG**

WITH VIKING **CUSTOMER FAVORITES!**

THE CLASSIC **CALL BOX**

Model E-30 is a classic stainless steel speaker phone that provides convenient handsfree communication and can be connected directly to a CO line, analog PABX station, or FXS port. The E-30 is telephone line powered and features a built-in 5 number dialer, as well as intelligent call progress detection for automatic hang-up on CPC, silence, busy signal, or time out.

- LOOKING FOR MORE FEATURES?**
- For outdoor use, see E-30-EWP with Enhanced Weather Protection
 - For a built-in IP color video camera, check out the new X-35 Series
 - For VoIP, see the E-30-IP

The timeless brushed stainless steel faceplate is an attractive choice for both residential and commercial applications, and is also rugged and reliable, constructed for many years of use. The E-30 easily flush mounts, or can be surface mounted using a VE-5x5, sold separately.

THE RELIABLE EMERGENCY PHONE

A straightforward emergency phone, the E-1600A is durable, low-profile, and meets the ADA requirements for elevator and emergency telephones. The phone can dial up to 5 emergency numbers, as well as 2 central station numbers, and is easily programmed from a touch tone phone.

ALSO AVAILABLE:

- Additional colors and styles
- SIP compliant VoIP models
- Enhanced Weather Protection for installing outdoors

more info

The E-1600A can automatically deliver a digital announcement to identify the location of the emergency call and/or send a DTMF touch tone code. It is phone line powered, requiring no batteries or external power, and is compatible with common Central Station Monitoring equipment.

THE EFFICIENT PAGING SYSTEM

The PA-2A provides 2 Watts of power - enough to drive three 8-Ohm speakers. Connect the PA-2A to a paging port or unused telephone line input (FXO port) of nearly any phone system for paging.

The PA-2A will also generate adjustable loud ringing from up to 6 analog FXS lines or from a dry contact closure. An external "night transfer" switch can be added to turn loud ringing on or off in night bell applications.

The PA-2A eliminates the installation of multiple bells, relays, and paging cards.

more info

CHOOSE ONE OF FOUR RINGING SOUNDS:

- Electronic warble (traditional loud ringer)
- Double gong (two identical "gong" tones)
- Quadruple chime (four descending chime tones)
- Door chime (ding-dong)

TRIVIA QUESTION

What US state is known as the "Badger State"?

Everyone who submits the correct answer by 2/28/2025 will be entered into a prize drawing.

NOV-DEC TRIVIA: What grade is typically referred to as "freshman year" in high school? **ANSWER:** 9th

Congratulations to **KATHY DAVISON** from **GRAYBAR!**

THE VERSATILE CONTROLLER

The SRC-1 enables a standard touch tone phone to securely operate a set of timed relay contacts to control a doorstrike or gate controller at a remote location. The SRC-1 is fully user programmable and uses non-volatile memory. The SRC-1 eliminates the possibility of dialing the activation code through the entry phone using a hand held touch tone dialer.

The SRC-1 features a switchable 32V talk battery to allow use with any of Viking's analog entry phones (E Series), doorboxes (W Series) or hot-line/panel phones (K Series). The SRC-1 is installed between the entry phone and the secure phone, and will reject touch tones from the entry phone and only operate the relay if the correct activation code (user programmable) is given from the secure phone.

The SRC-1 also provides up to 32 keyless entry codes to operate the relay from the entry phone with 1 to 6 digits. This feature can be disabled in programming for increased security.

SECURE CONTROL OF:

- High security building entry systems
- Door strikes and gates when used with:
 - Doorboxes: W-1000, W-2000A, W-3000, etc.
 - Entry Phones: E-10A, E-20B, E-30, E-40, etc.
 - Hot Line / Panel Phones: K-1500-7, K-1900-7, K-1900-8, etc.

Thank You!

We're so grateful to have you as part of the Viking family. For over 55 years, we've been dedicated to making tough, reliable, and innovative products right here in the USA, and it's all possible because of customers like **YOU**. Our team is here to make sure your experience with Viking is as smooth and easy as possible. From our engineers to our support team, we're all about helping you find the right solutions and keeping things running flawlessly.

THANK YOU for choosing Viking Electronics. We're excited to keep supporting you with products and service you can count on.

We look forward to working with you in 2025!
