

## SPOTLIGHT: PANIC BUTTONS

### VoIP Emergency Phone Panic Button

Model PB-3-IP is a VoIP Emergency Phone Panic Button designed to mount under a desk or countertop and provide a quick and reliable way to make a silent emergency call. The called party can silently monitor the situation or engage in two-way handsfree communication by entering a touch tone “#”.

The PB-3-IP functions as a SIP end point connecting with a single CAT 5/6 cable from your POE switch. The unit can be programmed from any PC on the same LAN or remotely using a static IP address.

The PB-3-IP dials up to 5 emergency numbers and can be programmed to automatically deliver a digital voice announcement and / or an optional DTMF touch tone code to identify the location of the emergency call. The red LED integrated into the push button will light, indicating that an emergency call is in progress.

For more information on the PB-3-IP:  
<https://vikingelectronics.com/products/pb-3-ip/>

### Panic Button Applications:

- K-12 classrooms
- College classrooms
- Silent holdup alarms
- Bank tellers
- Courtrooms
- Gas stations
- Hotel / motel reception
- Convenience stores
- All night restaurants

### Learn more about Viking Panic Buttons

### Analog Emergency Phone Panic Button

The PB-3 is designed to connect to any standard analog telephone line, analog phone system station, or FXS port. All programming parameters, including phone numbers and location numbers, are stored in non-volatile memory. The unit is telephone line powered, requiring no batteries or external power, and is compatible with common Central Station Monitoring equipment.

The PB-3 dials up to 5 emergency numbers, as well as 2 central station numbers, and can be easily programmed from any touch tone phone. The Panic Button can be programmed to automatically deliver a digital announcement identifying the location of the emergency call, and an optional DTMF touch tone code may also be delivered. The red LED integrated into the push button will light, indicating that an emergency call is in progress.

## WHAT YOU NEED TO KNOW ABOUT ALYSSA'S LAW

### What is ALYSSA'S LAW?

Alyssa's Law is legislation to improve the response time of law enforcement during emergencies in public schools. It mandates that all public elementary and secondary school buildings be equipped with silent panic alarms that directly notify law enforcement.

#### How will Alyssa's Law affect you?

## LET'S 'KETCHUP' ON

# BURGERS!

Burgers are a staple on grills and menus everywhere, but there's more to them than beef and buns. Here's a few fun facts to chew on next time you fire up the grill...

#### BURGER BEGINNINGS:

The hamburger likely originated in the U.S. in the 1800s but its name comes from Hamburg, Germany.

**FAST FOOD FAME:** McDonald's serves over 75 burgers every second worldwide - over 6 million burgers a day!

**RECORD-BREAKING BEEF:** The world's largest hamburger weighed 2,014 pounds and took four years to plan! It was cooked in Minnesota in 2012.

**NATIONAL BURGER DAY:** May 28th is National Hamburger Day in the U.S. mark your calendar and grill.

**THE CHEESEBURGER'S ORIGIN:** Legend has it the cheeseburger was invented by a 16-year-old in Pasadena, California, in 1926 when he plopped a slice of cheese on a sizzling patty.

**BURGER EMOJI DEBATES:** Google once had the cheese under the patty in its burger emoji, which sparked an internet debate so fierce, they actually changed it.

**BURGERS IN SPACE:** Astronauts aboard the International Space Station have eaten burgers with specially prepared buns and vacuum-packed patties!

## TRIVIA QUESTION

### What is the most popular burger topping in America?

Everyone who submits the correct answer by 8/31/2025 will be entered into a prize drawing.

**MAY-JUN TRIVIA:** What city is home to the largest Memorial Day parade in the United States? **ANSWER:** Washington DC

Congratulations to **KATHY GRAY** from **CTS COMPANIES!**

## CAMPUS SECURITY SOLUTIONS!

### Access Control

- Entry phones and doorboxes
- Controllers and entry systems
- Commercial, multi-tenant, residential, etc.
- Integrated high resolution color camera options
- Models with Enhanced Weather Protection (EWP) for outdoor applications
- Proximity card readers and keypads
- Indoor and outdoor enclosures
- Analog and VoIP options
- Choice of styles, sizes, and colors for different applications

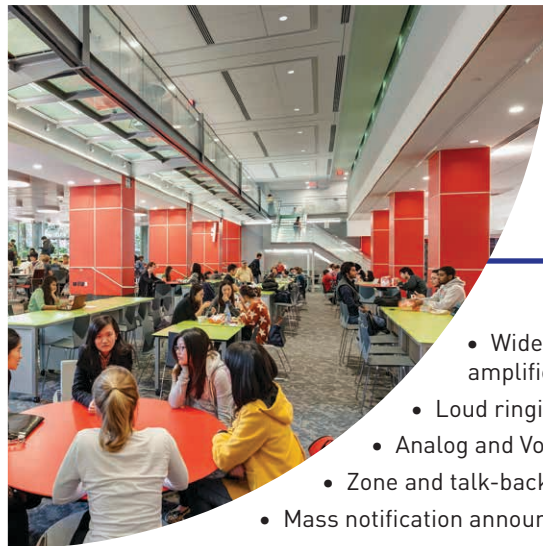

### Emergency Communication

- ADA compliant emergency and elevator phones
- Discreet panic buttons with silent monitoring and/or two-way audio
- Built-in digital voice announcer
- Models with Enhanced Weather Protection (EWP) for outdoor applications
  - Smart line sharing
  - Analog or VoIP interface
  - Extensive chassis selection and mounting options for many different applications

- Generate clock controlled tones and messages
- CTG-2A master clock
- Up to 14 schedules and up to 1000 events
- 6 minutes of WAV file record time
- Program remotely via TCP/IP network
- 4 programmable trigger inputs for emergency tones
- Factory loaded with common tones and evacuation signals or use custom tones and messages
- Wireless analog and digital clocks available in a variety of styles and sizes

### Clock Systems

- Wide range of amplifiers
- Loud ringing
- Analog and VoIP options
- Zone and talk-back paging
- Mass notification announcers
- Night bell over paging
- Anti-feedback paging
- Self-amplified paging system and accessories
- Timed tones and announcements over paging
- Selection of ceiling speakers and paging horns

### Paging and Mass Notification
