

SPOTLIGHT: HIGH SECURITY PANEL PHONES

VANDAL RESISTANT VOIP PANEL PHONES Includes Auto Dialer and Relay Control

The K-1900-6-IP and K-1900-7-IP VoIP Panel Phones can be programmed to auto-dial a phone number each time the handset is lifted. If the call is not answered, the phone will dial up to 3 additional phone numbers. The K-1900-6-IP and K-1900-7-IP phones are designed to provide quick and reliable communication for SIP VoIP phone systems with PoE. The unit can be programmed from any PC on the same LAN or remotely using a Static IP Address.

- Built-in adjustable ringer and 2 Amp relay contacts
- SIP compliant and PoE powered (class 1 < 4 Watts)
- Auto-dials up to 4 programmed phone numbers, cycles through numbers on busy or no answer
- Mounts on a standard double-gang electrical box
- Optional VE-5x10 Surface Mount Box available
- Optional Enhanced Weather Protection (EWP)

VOIP PANEL PHONE with BUILT-IN ENTRY SYSTEM Includes Keypad, Auto Dialer, and Relay Control

The K-1900-8-IP VoIP panel phone can either auto-dial a phone number each time the handset is lifted, be used as a multi-number auto-dialer, or be used as a standard manual dial phone. The phone is designed to provide quick and reliable communication for SIP VoIP phone systems with PoE. The K-1900-8-IP can be programmed from any PC on the same LAN or remotely using a Static IP Address. The K-1900-8-IP phone can dial up to 250 programmable numbers and another 250 rollover numbers.

- 2 sets of relay contacts
- Built-in adjustable ringer
- Optional Enhanced Weather Protection (EWP)
- SIP compliant and PoE powered (class 2 < 6.5 Watts)
- Speed dials up to 250 numbers, each with rollover
- Store up to 1000 keyless entry codes
- Event logging with time and date stamp
- 26 bit Wiegand input for proximity card readers
- Zinc plated steel rough-in box included
- Optional VE-5x10 Surface Mount Box available
- Hearing aid compatible amplified handset

See EWP in ACTION!

The weather is **TOUGH** here in Wisconsin! But, it gives us a chance to demonstrate Viking's **Enhanced Weather Protection**.

Andrew shows how EWP helps protect our products from the snow and cold. Check out this video on YouTube - don't forget to subscribe to Viking's channel!

From sunshine to snowstorms, VIKING WORKS!

TECH TIPS!

IP PANEL PHONES with SHORT 12" HANDSET CORDS

Both the K-1900-712L-IP and K-1900-812L-IP panel phones are designed to provide quick and reliable communication for SIP VoIP phone systems with PoE. Although the phones look similar, they function differently.

The K-1900-712L-IP VoIP panel phone will automatically dial a 1-20 digit programmable phone number each time the handset is lifted. If the call is not answered, the phone will dial up to 3 additional phone numbers.

The K-1900-812L-IP VoIP panel phone features a heavy-duty keypad and can either auto-dial a phone number each time the handset is lifted, be used as a multi-number auto-dialer, or be used as a standard manual dial phone.

What sets these apart from other panel phones is that they both feature a short 12" armored handset cable with an internal stainless steel lanyard for added strength. The short cable and internal lanyard reduces the likelihood of vandalism due to pulling the handset cable out of the phone. This is a cost-effective solution for applications in a high vandalism location, such as Police Stations, Jails, Prisons, etc.

Models K-1900712LIPPEWP and K-1900812LIPPEWP come with Enhanced Weather Protection (EWP) for outdoor installations.

VANDAL and WEATHER RESISTANT SURFACE MOUNT BOXES

The VE-5x10 Surface Mount Box adds vandal and weather resistance, as well as versatility to Viking's flush mount panel phones.

The VE-5x10 is available in fine texture black powder painted steel or marine grade 316 stainless steel. It is designed to be surface mounted to a single or double gang box, a wall, or a Viking gooseneck pedestal. Model VE-5x10-NR is the same great box as the original, but without the rainguard. Ideal for surface mounting indoors! Available in both black powder painted steel or marine grade 316 stainless steel.

OUTDOOR ENCLOSURES for VIKING PANEL PHONES

For more info on Viking Outdoor Enclosures scan here

The VE-9x12 series of outdoor enclosures provide the ultimate in weather protection for your Viking product or other device. The VE-9x12 enclosures are constructed of durable UV stable polycarbonate / ABS composite to provide years of outdoor service. The heavy-duty doors are labeled "Telephone" and have a gasket seal to keep out even the harshest weather. To mount Viking panel phones in the VE-9x12, it is recommended you use a panel phone with a 12" armored cable and select an enclosure equipped with internal panel 3, models shown below.

The VE-9x12 enclosures are available in three high visibility colors: red with silver lettering, yellow with red lettering, or black with silver lettering.

Earth DAY

EARTHDAY.ORG focuses on natural processes, emerging green technologies, and innovative thinking that can restore the world's ecosystems. In this way, Earth Day rejects the notion that mitigation or adaptation are the only ways to address climate change. It is up to each and every one of us, not just because we care about the natural world, but because we live on it. We all need a healthy Earth to support our jobs, livelihoods, health & survival, and happiness. A healthy planet is not an option — it is a necessity.

More than 1 billion people in 192 countries now participate in Earth Day activities each year, making it the largest civic observance in the world. Today, we invite you to be a part of Earth Day and to help further climate action across the globe.

Since the very first Earth Day, EARTHDAY.ORG has created civically oriented innovative programs with partners both inside and outside of the environmental movement to tackle new challenges. Our environmental campaigns mobilize individuals around the world on a variety of issues.

Visit EARTHDAY.ORG to learn more and find out how you can get involved.
