Durable IP Intercoms with HD Video

The heavy-duty **X-35 Series** IP Video Intercoms are ideal for commercial and industrial installations. These intercoms feature a vandal-resistant flush mount chassis that is available in three different finishes.

The **X-35** intercoms are a feature-rich solution designed to deliver high-definition video and dependable voice communication via SIP VoIP phone systems, cloud providers, or third party apps.

The built-in IP video camera supports both H.264 and MJPEG video compression via RTSP, offering low-light sensitivity, a wide 126-degree viewing angle, and the capability to output both call and NVR video streams simultaneously at up to 1080p resolution.

For outdoor installations where the unit is exposed to precipitation or condensation, the **X-35** intercoms are available with Enhanced Weather Protection (EWP).

X-35 Highlights

- Privacy-focused design - choose your own SIP and NVR solutions
- No forced cloud services or subscriptions
- SIP compliant for seamless integration
- ONVIF Profile S compliant 
- Supports H.264 and MJPEG video encoding
- Separate NVR stream with two-channel audio

Enhanced Weather Protection (EWP)

For applications requiring an extra layer of protection against moisture, vehicle exhaust, pool chemicals or extreme temperatures, Viking's Enhanced Weather Protection gives you the durability you need for years of service. Enhanced Weather Protection (EWP) can tackle tough applications like ocean beach properties, swimming pool areas, parking garages, or anywhere a product is exposed to harsh elements.

DEFENDS Against Moisture

The circuit board and other internal components are sealed from moisture and condensation.

SHIELDS from Salt Air

Guards against corrosive surroundings, such as installations outside near the ocean.

SURVIVES the Heat

EWP protects against soaring temperatures, humid or dry - we've got you covered.

ENDURES the Cold

EWP products stand up to cold weather. (We test our products in Wisconsin and we know cold weather!)

PROTECTS from Corrosion

Corrosive locations such as pool areas, parking garages, or near an ocean are extremely tough on electronics. EWP protects against corrosion from salt air, exhaust, chlorine, etc.

Does your installation require EWP?

If you answer "YES" to any of the following questions, we recommend using a product with Enhanced Weather Protection (EWP).

- Is the product located outside where it is exposed to precipitation or condensation?
- Is the product exposed to high or low temperatures?
- Is the product mounted near an indoor or outdoor swimming pool or spa?
- Is the product mounted in an area with exposure to vehicle exhaust?
- Does the product wiring use conduit which could funnel warm inside air to the product mounted outside, causing condensation on the circuit board?
- Is the product mounted in a location with a known corrosive atmosphere?
- Can the temperature of the product get below the dew point?

TRIVIA QUESTION

What is the technical term for the first day of spring in the Northern Hemisphere?

Everyone who submits the correct answer by 4/30/2025 will be entered into a prize drawing.

JAN-FEB TRIVIA: What US state is known as the "Badger State"? **ANSWER:** Wisconsin

Congratulations to **CHRIS JANKOVIK** from **NEW AGE TELECOM!**

X-SERIES

Compact IP Video Intercoms

The **X-205 Series** combines a sleek, compact design with high-performance communication for residential, office, and professional settings. Available in three finishes, these intercoms feature a durable surface mount chassis.

Designed for high-definition video and reliable voice communication over SIP VoIP systems, cloud providers, or third-party apps, the **X-205** includes a built-in IP video camera with H.264 and MJPEG compression, low-light sensitivity, a wide 126° viewing angle, and simultaneous call and NVR streaming up to 1080p.

This advanced intercom system enables programmable number dialing and automatic backup dialing in the event of a busy signal or no answer. Setup is easy via the built-in Web UI, eliminating the need for a dedicated app.

For outdoor installations, models with Enhanced Weather Protection (EWP) are available.

X-205 Highlights

- Choose your own SIP and NVR solutions
- No forced cloud services or subscriptions
- SIP compliant for seamless integration
- ONVIF Profile S  compliant
- Supports H.264 & MJPEG video encoding
- Provides a separate NVR stream with two-channel audio

SPRING HAS SPRUNG *AND* SO CAN YOU!

Ah, spring. The season of fresh blooms, warmer breezes, and the unmistakable urge to open every window in sight. It's the time of year when nature shakes off the winter blues, and let's be honest - so do we.

Think about it: birds are singing, flowers are blooming, and suddenly, everything feels just a little more possible. It's the perfect time to hit the refresh button - not just on your home (hello, spring cleaning!), but also on your mindset, goals, and even your work habits.

BE LIKE THE TREES.

Grow and stretch! Is there a skill you've been wanting to sharpen? A project you've been meaning to kickstart? Now's the time!

SOAK UP THE SUNSHINE.

Studies show that more daylight can boost mood and productivity. Take that coffee break outside or crack a window - your brain will thank you.

STAY BUSY, BUT DON'T FORGET TO STOP AND SMELL THE FLOWERS.

Spring is about balance. Work hard, but also take a moment to appreciate the little joys - a blooming flower, a warm breeze, or maybe just the fact that you no longer need five layers to step outside.

FUN FACT: SPRING FEVER IS REAL!

The combination of more sunlight, increased serotonin, and a general sense of renewal actually gives people more energy and motivation this time of year. So if you've been feeling a little extra pep in your step lately - embrace it!

Here's to a season of fresh starts, bright ideas, and plenty of good vibes. Let's make this spring a time for growth - both in and out of the office!
