VIKING

SPOTLIGHT: ADA Compliant Emergency Phones

Provide Quick and Reliable Handsfree Communication

The 1600A Series and 1600-IP Series are ADA Compliant Emergency Phones designed to provide quick and reliable handsfree communication. All 1600A and 1600-IP Series phones meet ADA requirements for elevator and emergency telephones. The phones can dial up to 5 programmable emergency numbers and select models feature a second "INFO" button that can dial non-emergency numbers.

These emergency phones can be programmed from any touch tone phone. Alternatively, the VoIP emergency phones can be programmed from a PC on the same LAN. All models can be programmed to deliver a digital announcement to identify the location of the emergency call. An optional DTMF touch tone code may also be delivered and a "Call Connected" LED can be initiated manually or automatically.

- Viking offers a large selection of colors, chassis styles, and mounting options

- Analog models are phone line powered, requiring no batteries or external power

- VoIP models are PoE powered (class 1)

- Automatic Noise Canceling (ANC) for proper operation in noisy environments

- Complies with ASME A17.1 Elevator Code when used with a Viking LV-1K

- For outdoor applications, Enhanced Weather Protection (EWP) models available, designed to meet IP66 Ingress Protection Rating

What is ADA? On July 26, 1990 the Americans with Disabilities Act (ADA) was signed into law. The ADA prohibits discrimination and guarantees that people with disabilities have the same opportunities as everyone else to participate in the mainstream of American life. To learn more about the ADA, visit: **www.ADA.gov**

3 Keys for AoR Code

Enhanced Weather Protection (EWP)

For applications requiring an extra layer of protection against moisture, vehicle exhaust, pool chemicals or extreme temperatures, Viking's Enhanced Weather Protection gives you the durability you need for years of service. Enhanced Weather Protection (EWP) can tackle tough applications like ocean beach properties, swimming pool areas, parking garages, or anywhere a product is exposed to harsh elements.

TECH TIPS!

or **SCAN HERE**

DEFENDS Against Moisture

The circuit board and other internal components are sealed from moisture and condensation.

SHIELDS from Salt Air

Guards against corrosive surroundings, such as installations outside near the ocean.

SURVIVES the Heat

EWP protects against soaring temperatures, humid or dry - we've got you covered.

ENDURES the Cold

EWP products stand up to cold weather. (We test our products in Wisconsin and we know cold weather!)

PROTECTS from Corrosion

Corrosive locations such as pool areas, parking garages, or near an ocean are extremely tough on electronics. EWP protects against corrosion from salt air, exhaust, chlorine, etc.

PRODUCT PROFILES

LED Visual Indication

The BLK-4 provides high visibility indication of line status through a high powered 360º LED strobe and/or beacon visual indicator. The BLK-4 can be used to add emergency notification to pre-existing emergency phones by turning on the strobe light when the emergency phone is in use.

The included control module can be installed on any standard telephone line or analog PABX/KSU station. The strobe can also be triggered by the relay contact output of the 1600-IP series emergency phones.

The BLK-4 is designed for indoor applications. The BLK-4-EWP is equipped with Enhanced Weather Protection (EWP) for outdoor installations where the unit is exposed to precipitation or condensation.

For more information, go to:

JAN-FEB Trivia: Wisconsin produces more of what dairy product than any other state? **Answer:** Cheese (of course!)

Congratulations to **JIMMY BYARS** from **ESSARY COMMUNICATIONS!**

VE-9x12 Outdoor Enclosures
Added Protection for Your Viking Product!

The VE-9x12 series of outdoor enclosures provide the ultimate in weather protection for your Viking product or other device. The VE-9x12 enclosures are constructed of durable UV stable polycarbonate / ABS composite to provide years of outdoor service. The heavy-duty doors are labeled "Telephone" and have a gasket seal to keep out even the harshest weather. The VE-9x12 allows you to choose from three panels that allow mounting many different Viking products.

The VE-9x12 enclosures are available in three high visibility colors: red with silver lettering, yellow with red lettering, or black with silver lettering.

ADA Compliant Tower Phones with Blue LED

- Meets ADA requirements for emergency phones
- High power LED strobe and beacon features:
  - High output / long life LED
  - 4 programmable flash patterns
  - 6 brightness settings
- Analog and VoIP models available
- Enhanced Weather Protection (EWP) comes standard, EWP is designed to meet IP66 Ingress Protection Rating
- Tower Chassis: 8 gauge thick aluminum, 42.0" 3.0" x 6.0" rectangle tube, powder painted high-visibility yellow
- Surface mount to wall or post
- Power supply included for strobe
- Phone Panel: 14 gauge stainless steel

For more information, go to **vikingelectronics.com** and search for Tower Phones or **scan below**

10 Signs Spring is Here

1. On the first warm day people don't know what to wear.
2. People open windows (even if it's a little too cold).
3. Sunglasses 👓 emerge from their winter hibernation.
4. A warm afternoon makes grills come to life.
5. Birds 🐤 start their morning concerts at 5am.
6. Pollen reminds everyone spring has arrived.
7. Snow shovels go back into hiding.
8. Lawnmowers come out of retirement.
9. One last winter storm ⛄ keeps people on their toes.
10. Everyone agrees... winter felt *waaay* too long.

NEW Multicast Paging Server

The **MPS-IP** is ideal for schools, universities, manufacturing facilities, and any environment that demands flexible multizone paging, event-triggered announcements, or automated message scheduling.

The Viking **MPS-IP Multicast Paging Server** is a versatile SIP paging endpoint supporting up to 100 zones. The unit provides paging to all zones from a single SIP extension, assign dedicated extensions to individual zones, or use SIP extensions as triggers to play prerecorded audio files. Its built-in calendar schedule automates delivery of prerecorded messages to multicast zones and legacy analog paging systems - all managed through a secure web interface.

Contact Viking for more information on the MPS-IP Multicast Paging Server
